Project Details:

Project No.	Project Title & Project Description including skill sets & expected learning:
Project 1	Title: Automation of Model Monitoring Process from Workflow Creation to Dashboard Preparation Description: We are seeking interns to automate the model monitoring process, from workflow creation to dashboard preparation. The project will involve developing automated workflows to streamline the monitoring process and creating dashboards in Tableau to enhance monitoring workstreams. Key Responsibilities: • Develop and implement automated workflows for model monitoring using Python. • Create and maintain dashboards in Tableau to visualize and enhance monitoring workstreams. • Collaborate with cross-functional teams to understand requirements and translate them into technical solutions. • Ensure the accuracy and reliability of monitoring processes and dashboards. • Continuously improve and optimize workflows and dashboards based on feedback and performance metrics. Skill sets: • Proficiency in Python for automation and data processing. • Experience with Tableau for dashboard creation and data visualization. • Strong understanding of workflow automation tools and techniques. • Excellent analytical skills and logical thinking. Traits expectation: • Excellent analytical skills and logical thinking. • Strong problem-solving abilities. • Ability to work independently and as part of a team. • Good communication skills to effectively collaborate with stakeholders. • Attention to detail and commitment to quality.

	Expected learning: Specific courses required for project execution: Open to all BTech and DD streams
--	---

Key Metrics:

Project No.	CGPA Cutoff	Monthly stipend
Project 1	6 and above and no active back-logs	INR 40,000

Key points:

- The resumes will be sent to the organization. Organization will select students either on the basis of resume or on the basis of the test/interview.
- Selected students **should NOT drop out** at the later stages. **It is understood that, as you are applying for this opportunity out of your interest, you will do your PS II at this organization, if you get SELECTED.**
- Allotment of a student to a station depends on the station that gives the result, first. Once a student gets selected, he/she will be moved out of PS process from other stations automatically. The decision of Dean, PS is final in this regard.
- If a student is applying for more than one station through this notice process and **gets selected in multiple stations simultaneously**, then the final station allotment will be decided by the PSD. The decision of Dean, PS is final in this regard.

**Associate Dean, Planning and Development
