PROFESSIONAL SUMMARY

Analytical and detail-oriented Data Analyst with 4+ years of professional experience turning complex datasets into actionable business insights. Expert in data modeling, statistical analysis, and interactive dashboard creation. Skilled at bridging the gap between technical metrics and executive decision-making to optimize revenue performance.

CORE COMPETENCIES

Data Analytics: SQL (PostgreSQL, BigQuery), Python (Pandas, NumPy, Scikit-Learn), R Studio

Visualization & BI: Tableau, Power BI, Looker Studio, Advanced MS Excel

Methodologies: A/B Testing, Predictive Modeling, Data Cleansing, ETL Pipelines

PROFESSIONAL EXPERIENCE

Data Analyst | Apex Retail Corporation

Mar 2022 – Present | Chicago, IL

- Designed and implemented a suite of executive Tableau dashboards, providing visibility into daily KPI trends and automating 15 hours of manual weekly reporting.
- Conducted thorough cohort analysis and customer segmentation that identified a \$250K leak in the checkout funnel, leading to targeted engineering fixes.
- Built SQL queries and ETL scripts to handle data streams of over 1M records daily, optimizing query runtimes by 20%.

Junior Business Analyst | Horizon Financial Group

Aug 2020 – Feb 2022 | New York, NY

- Supported the risk management team by tracking market volatility trends and translating findings into comprehensive monthly PDF briefs.
- Cleaned and structured legacy marketing data using Python, resolving a 12% discrepancy in historical multi-channel attribution.
- Facilitated cross-departmental requirements gathering sessions for a major migration to a centralized cloud data warehouse.

EDUCATION

Bachelor of Science in Statistics

Northwestern University | Graduated June 2020
